

**Amendments to the Drawings:**

New drawings are submitted herewith which correct the drawing objections noted in Section 1 of the Office Action. Additionally, Fig. 7 has been amended to include new reference numerals with corresponding amendments having been made in the description of Fig. 7.

### **REMARKS**

The specification including the Abstract, has been amended to improve its form for reexamination. The amendments made to the specification include addressing the matters addressed by the Examiner. The Examiner is thanked for pointing out these matters on the record.

Claims 20, 21, 23, 25, 27, 29, 33, 35, 37, 39, 41, 43 and 46-48 stand rejected under 35 U.S.C. §112, second paragraph. Newly submitted claims 49-78 have been addressed to overcome the stated grounds of rejection. The terminology "U-shaped" has been deleted from new claims 49 and 50, which correspond to claims 19 and 20. Claim 49 recites "at least one partially toroidal magnetic core or at least one magnetic core including parallel pieces and including two front ends" and claim 50 recites "at least two partial toroidal magnetic cores or at least two magnetic cores including parallel pieces and including two front ends" which is descriptive of the subject matter illustrated in Fig. 7 without using the description "U-shaped".

In view of the foregoing amendments and remarks, it is submitted that the application is in condition for allowance. Accordingly, early allowance thereof is respectfully requested.

To the extent necessary, applicants petition for an extension of time under 37 C.F.R. §1.136. Please charge any shortage in the fees due in connection with the filing of this paper, including extension of time fees, to the deposit account of

Antonelli, Terry, Stout & Kraus, LLP, Deposit Account No. 01-2135 (Case:  
785.45159X00), and please credit any excess fees to such deposit account.

Respectfully submitted,

ANTONELLI, TERRY, STOUT & KRAUS, LLP
